B. If a portion of the appropriation is found to have had water beneficially applied within the scope of the original project concept, the Department may, at its discretion, modify the project map and land listing to reflect the conditions observed during the field investigation. However, the number of acres and the diversion rate determined by the Department will not exceed the limits granted by this Order. If no portion of the appropriation is found to have had water beneficially applied, the Department will issue an Order of Cancellation in Full for this appropriation.

9. Additional Permits and Approvals

The approval granted by this Order is limited to the authority expressly provided herein. The appropriator is solely responsible for obtaining any additional permits, approvals, licenses, or authorizations that may be required by applicable federal, state, or local law, including those required by other governmental agencies or political subdivisions. Nothing in this Order shall be construed as authorizing any activity that requires a separate permit, approval, license, or authorization, or as relieving the appropriator of any obligation to comply with applicable federal, state, or local laws, rules, regulations, ordinances, or permitting requirements.

ADDITIONAL INFORMATION

Failure to comply with applicable laws, Department Orders, or the terms of this Order may result in cancellation, suspension, administrative penalties, and/or criminal prosecution.
