Description of Impact:

State Agency: The proposed revisions to Title 128 allow the Department of Water, Energy, and Environment to collect fees to administer the hazardous waste management program resulting in increased revenue to the Integrated Solid Waste Management Cash Fund, administered by DWEE. The increased revenue is anticipated to be approximately \$259,000 for the first year (for the period beginning July 1, 2026 to December 31, 2026). The increased revenue beginning January 1, 2027 is anticipated to be approximately \$310,000 per year thereafter. This estimate is based on the proposed fee rates and the number of hazardous waste generators in the state.

Political Subdivision: No fiscal impact.

Regulated Public: If promulgated, small and large quantity hazardous waste generators, as defined in Title 128 – Nebraska Hazardous Waste Regulations, will be responsible for paying fees to DWEE as specified in proposed Title 128: an annual administrative fee.
