

Nebraska Department of Water, Energy, and Environment

The National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS) notebooks are to be used as an assistance tool to help comply with state and federal regulations. The Notebooks are not inclusive and are not meant to serve as a substitute for compliance with all applicable regulations. If you have corrections, comments, or questions regarding the notebooks, NSPS, NESHAP or permitting, please contact us at DWEE.AirQuality@nebraska.gov or 402-471-2186.

Air Toxics Notebook

Close Vent Systems/Control Devices

eCFR 40 CFR Part 63 Subpart SS

40 CFR Part 63 Subpart SS	Close Vent Systems/Control Devices
Amendment Dates	07/06/2020 04/20/2006 07/22/2002 11/22/1999 06/29/1999
Am I Subject to this subpart?	I. This subpart applies to: (A) Any of the following that are subject to another NESHAP that references this subpart: (1) Closed vent systems (2) Control devices (3) Routing of air emissions to a fuel gas system or process. (B) See also Generic NESHAP 40 CFR 63 Subpart YY. “Generic MACT” standards are consolidated standards designed to cover multiple sources with similar emission types and MACT control requirements. Generic MACT standards are often established when there are less than five (5) facilities nationwide in a source category. (C) Other MACT standards may reference a Generic MACT. For example, Subpart YY facilities include: (1) Acetal resins production; (2) Acrylic/modacrylic fibers production; (3) Carbon black production; (4) Cyanide chemical production; (5) Ethylene manufacturing; (6) Hydrogen fluoride production; (7) Polycarbonates production; (8) Spandex production.
