Paint and Allied Product Manufacturing

eCFR 40 CFR Part 63 Subpart CCCCCC

40 CFR Part 63 Subpart CCCCCC	Paint and Allied Products Manufacturing
Amendment Dates	11/19/2020 06/03/2010 03/05/2010 12/03/2009
Am I Subject to this subpart?	I. This subpart applies to: (A) New and existing paint and allied product manufacturing facilities that are area sources of hazardous air pollutants (HAP) and process, use, or generate: (1) Benzene or methylene chloride (volatile HAP) (2) Compounds of cadmium, lead, and/or nickel $\geq$ 0.1% by weight (metal HAPs). (B) The intended use of the paint and allied products is to leave a dried film of solid material on a substrate. Typically, facilities within SIC 285 or 289 and NAICS 3255 and 3259 are subject to this rule (this is not inclusive). (C) HAPs of concern are benzene, methylene chloride, cadmium, lead, and nickel II. Not Subject to this Subpart: (A) Manufacturers of materials that don't leave dried film (thinners, paint removers, brush cleaners, & mold release agents); (B) Electroplated and electroless metal films (C) Raw materials (resins, pigments, and solvents) used in the production of paints and coatings; and (D) Activities by end users of paints and allied products

	*Area Sources of HAPs emit or have the potential to emit: (1) < 10 tons per year of a single HAP, or (2) < 25 tons per year of combined HAPs. Major Sources emit more than Area Sources.
Related Rules	NESHAP – 40 CFR Part 63 Subpart HHHHH - Miscellaneous Coating Manufacturing
