

# Nebraska Department of Water, Energy, and Environment

*The National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS) notebooks are to be used as an assistance tool to help comply with state and federal regulations. The Notebooks are not inclusive and are not meant to serve as a substitute for compliance with all applicable regulations. If you have corrections, comments, or questions regarding the notebooks, NSPS, NESHAP or permitting, please contact us at [DWEE.AirQuality@nebraska.gov](mailto:DWEE.AirQuality@nebraska.gov) or 402-471-2186.*

## Air Toxics Notebook

### Sources Defined for Early Reduction Provisions

#### eCFR Appendix B to Part 63, Title 40 -- Sources Defined for Early Reduction Provisions

|                                      |                                                                                                                                                                     |
|--------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Appendix B to Part 63</b>         | Sources Defined for Early Reduction Provisions                                                                                                                      |
| <b>Amendment Dates</b>               |                                                                                                                                                                     |
| <b>Am I Subject to this subpart?</b> | <b>I. This appendix applies to:</b><br>(A) Organic Process Equipment in Volatile Hazardous Air Pollutant Service at Chemical Plants and Other Designated Facilities |
| <b>Related Rules</b>                 |                                                                                                                                                                     |
