Municipal Waste Combustors for Which Constructed is Commenced After December 20, 1989 and on or before September 20, 1994

eCFR 40 CFR Part 60 Subpart Ea

40 CFR Part 60 Subpart Ea	Municipal Waste Combustors for Which Constructed is Commenced After December 20, 1989 and on or before September 20, 1994
Amendment Dates	10/17/2000 02/12/1999 12/19/1995 02/11/1991
Am I Subject to this subpart?	I. This subpart applies to: (A) Municipal waste combustors with a capacity greater than 225 megagrams/day (250 tons/day) that, (1) Commence construction after December 20, 1989 and on or before September 20, 1994; or (2) Commence modification or reconstruction after December 20, 1989 and on or before June 19, 1996 II. Not subject to this subpart: (A) Any unit combusting a single-item waste stream of tires if the owner or operator notifies the administrator of an exemption claim and provides data documenting that the unit qualifies for this exemption (B) Any co-fired combustor located at a plant with a capacity greater than 225 megagrams/day (250 tons/day) (C) Any co-fired combustor subject to a federally enforceable permit limiting it to no more than 225 megagrams/day (250 tons/day) (D) Qualifying small power production facilities that burn homogenous waste to produce electricity (see section 3(17)(C) of the Federal Power Act (16 US 796(17)(C)))

	(E) Qualifying cogeneration facilities that burn homogenous waste to produce electricity or other forms of useful energy (see section 3(18)(B) of the Federal Power Act (16 USB 796 (18)(B)) (F) Any unit required to have a permit under Section 3005 of the Solid Waste Disposal Act (G) Any materials recovery facility that combusts waste for the primary purpose of recovering metals (H) Pyrolysis/combustion units that are an integrated part of a plastics/rubber recycling unit *Many of the above facilities are required to submit notifications, proof of qualifying exemption, and maintain relevant records. Please see the rule text for full details
