

Nebraska Department of Water, Energy, and Environment

The National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS) notebooks are to be used as an assistance tool to help comply with state and federal regulations. The Notebooks are not inclusive and are not meant to serve as a substitute for compliance with all applicable regulations. If you have corrections, comments, or questions regarding the notebooks, NSPS, NESHAP or permitting, please contact us at DWEE.AirQuality@nebraska.gov or 402-471-2186.

NSPS Notebook

Large Municipal Waste Combustors for which construction is commenced after September 20, 1994 or for which modification or reconstruction is commenced after July 19, 1996

eCFR 40 CFR Part 60 Subpart Eb

40 CFR Part 60 Subpart Eb	Municipal Waste Combustors for Which Constructed is Commenced After December 20, 1989 and on or before September 20, 1994
Amendment Dates	05/10/2006 11/16/2001 07/12/2001 10/17/2000 08/25/1997 12/19/1995
Am I Subject to this subpart?	I. This subpart applies to: (A) Municipal waste combustors with a capacity greater than 225 megagrams/day (250 tons/day) that commences construction, modification, or reconstruction after Sep 20, 1994 (B) Units subject to this subpart are not subject to NSPS E or Ea (C) Physical or operational changes made to existing units to comply with emission guidelines under NSPS Cb are not considered modifications or reconstruction II. Not subject to this subpart: (A) Any waste combustion unit subject to a federally enforceable permit limiting the maximum amount of municipal solid waste combustion to 11 tons/day or less (B) Qualifying small power production facilities that burn homogenous waste to produce electricity (see section 3(17)(C) of the Federal Power Act (16 USC 796(17)(C))

	(C) Qualifying cogeneration facilities that burn homogenous waste to produce electricity or other forms of useful energy (see section 3(18)(B) of the Federal Power Act (16 USC 796 (18)(B)) (D) Any unit combusting a single-item waste stream of tires (E) Any unit required to have a permit under Section 3005 of the Solid Waste Disposal Act (F) Any materials recovery facility (including primary or secondary smelters) that combusts waste for the primary purpose of recovering metals (G) Co-fired combustors (H) Air curtain incinerators that combust only yard waste. (I) Pyrolysis/combustion units that are an integrated part of a plastics/rubber recycling unit (J) Cement kilns firing municipal solid waste *Many of the above facilities must submit notifications, proof of qualifying exemption status, and maintain relevant records. Please see the rule text for full details.
