

# Nebraska Department of Water, Energy, and Environment

The National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS) notebooks are to be used as an assistance tool to help comply with state and federal regulations. The Notebooks are not inclusive and are not meant to serve as a substitute for compliance with all applicable regulations. If you have corrections, comments, or questions regarding the notebooks, NSPS, NESHAP or permitting, please contact us at [DWEE.AirQuality@nebraska.gov](mailto:DWEE.AirQuality@nebraska.gov) or 402-471-2186.

## NSPS Notebook

### Magnetic Tape Coating Facilities

#### eCFR 40 CFR Part 60 Subpart SSS

|                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <b>Am I Subject to this subpart?</b> | <p><b>I. This subpart applies to:</b></p> <ul style="list-style-type: none"><li>(A) Affected facilities in the manufacturing of magnetic tape that commence construction, modification, or reconstruction after January 22, 1986</li><li>(B) Affected facilities:<ul style="list-style-type: none"><li>(1) Coating operations;</li><li>(2) Each piece of coating mix preparation equipment</li></ul></li></ul> <p><b>II. Partial exemptions*:</b></p> <ul style="list-style-type: none"><li>(A) Any new coating operation that uses less than 38 m<sup>3</sup> of solvent per calendar year;</li><li>(B) Any modified or reconstructed coating operation that uses less than 370 m<sup>3</sup> of solvent per calendar year.</li><li>(C) If the amount of solvent used exceeds the amounts specified above, the facility will become permanently subject to all requirements of this subpart, regardless of any future changes in solvent use</li></ul> <p>*These facilities must still comply with certain recordkeeping and reporting requirements. Please see the rule text for full details (per 40 CFR 60.710 (b))</p> |
