

Fuel Ethanol Consumption Comparisons by State and by Sector

2024

(Thousand Barrels)

State	Commercial
California	894
Florida	555
Texas	525
New York	288
Illinois	254
Pennsylvania	238
Georgia	229
Ohio	217
Virginia	210
North Carolina	208
New Jersey	183
Arizona	171
Colorado	165

Sources: Energy Information Administration, State Energy Data System. Washington, DC. Nebraska Department of Water, Energy, and Environment, Lincoln, NE.

Notes: (s) = Physical unit value less than 0.5 or Btu value less than 0.05.

Fuel ethanol blended into motor gasoline, which is accounted for under motor gasoline, is shown separately in this table to display the use of renewable energy. Because of differences in data sources and estimation methods, the ratio of fuel ethanol consumption and motor gasoline consumption should not be interpreted as the average ethanol blend rate. Totals may not equal sum of components due to independent rounding.
