

Floodplain Management Division April 2026

State Flood Hazard Mitigation Plan - Plan Update

The Nebraska Floodplain Management Division has received grant funds from the Federal Emergency Management Agency (FEMA) to update the State Flood Hazard Mitigation Plan. Updates are necessary to provide a plan for local communities to build on and better position Nebraska for future funding. Updates will be made to the critical facilities inventory, flood history, mitigation, and risk assessment sections, among others.

The following items summarize the Nebraska Floodplain Management Division's progress to date:

Plan Update Progress

- The Plan Update Committee Kick Off Meeting was held virtually on February 24, 2026. The presentation slides and recording of the meeting are now available on the Plan web page for those who were unable to attend.
<https://dwee.nebraska.gov/floodplain/nebraska-flood-hazard-mitigation-plan>
- The 2022 Plan may also be found on the Plan web page.
- You will be notified as *draft* sections are available for your review and comment.
- The risk assessment tool has been created, and test simulations have been completed.

Projected Tasks for the next quarter (April through June)

- Continue updating sections of the plan and incorporating any comments received.
- Complete the risk assessment and start updating the relevant pieces of the plan.
