

## 2026 Scrap Tire Cleanup Events

### Funded by DWEE's Waste Reduction & Recycling Incentive Grant Program

Counties shaded blue on the map below will have a scrap tire cleanup event in 2026. The four-digit numbers associated with each county represent the application number. That number can be found on the table on the following pages along with details about the corresponding scrap tire event. The table will be updated as more information becomes available.

Scrap tire cleanup events are organized by the applicants who received grant funds. Questions about specific events should be directed to the applicants. In total, DWEE funded 32 scrap tire cleanup events across 36 counties, collecting up to 8,050 tons of scrap tires.

Application Number	Applicant Name	Counties/ Communities Served	Tire Collection Amount	Applicant Contact Email	Event Date	Event Location

Scrap tire collection events must be open to all residents of the county or community being served. Participation by businesses is at the discretion of the entity hosting the event.

The State Department of Transportation and county road departments are not permitted to participate in or utilize scrap tire collection events. Tires collected by county road departments from illegal roadside dumping sites should be managed through the [Illegal Dumpsite Cleanup Program](#).
