_____

6. Are there other sources of water available at the *proposed* location of use?

☐ Yes ☐ No If yes, describe and state whether any provisions have been made to prevent the use of a new source or increased use from an existing source.

_____

_____

_____

7. If the proposed transfer is for the purpose of increasing the quantity of surface water available for use pursuant to other surface water appropriation(s), what are the other surface water appropriation(s): _____

8. If the *proposed* change is for irrigation, would the total of all appropriations on the land at the new location of use exceed the rate of one cubic-foot-per-second per 70 acres or an annual volume of three acre-feet per acre?

☐ Yes ☐ No If yes, describe the soil type and proposed cropping pattern at the new location of use.

_____

_____

_____

9. Consumptive use calculations, check only one.

☐ The Department shall determine consumptive use.

☐ An analysis of consumptive use is attached and is made part of the application.

☐ The proposed transfer will not change the purpose of use from irrigation, the number of acres to be irrigated will not increase and the point of diversion will remain the same. Therefore, no consumptive use calculations are required.

☐ The proposed transfer includes a change in purpose as provided for in Nebraska Revised Statute §46-290 (3), (5), or (6) and does not diminish the supply of water available or adversely affect as required in §46-294(1)(e)(ii). Therefore, no consumptive use calculations are required.

10. If the *proposed* transfer is for the purpose of augmenting flow or other in-stream benefits, identify the name of the stream and legal description for the start and the end of the stream reach to be augmented.
