

Air Quality Operating Permit Application Form 2.0: Emission Point Summary

Section 2.2: Emission Point Information

SOURCE NAME: _____

DATE: _____

DWEE FACILITY ID: _____

Note: Please place an asterisk (*) next to all estimated values (e.g., 5.6*).

Please check, if applicable: ☐ Multiple Section 2.2 pages attached (all of the information required below must be included in the attachment).

If you are providing a Substitute Section 2.2, indicate this on Form 1.0, Section 1.1 Checklist; you do not need to include blank Section 2.2 pages in your application. All of the information required below must be included in the substitute submission.

Table 1: Point Source Information

Emission Point ID	Emission Point Description	Universal Transverse Mercator (UTM) X (meters)	UTM Y (meters)	Ground Elevation (meters)	Stack Height (meters)	Temperature of Exhaust (degrees Kelvin, °K)	Exit Velocity of Exhaust (meters per second)	Inside Diameter of Stack (meters)	Flow Rate of Exhaust (cubic meters per second)

Source(s) of ground elevation and UTM data:
