

## Air Quality Significant Operating Permit Revision Application Form 9.0, Section 1.3: Source/Process Changes

SOURCE NAME: _____	DATE: _____
DWEE FACILITY ID: _____	

Complete the table below for any Significant Operating Permit Revision changes to the source and/or processes.  
Examples of minimum details to provide are provided below:

- Maximum Capacity/Throughput in **Units** (MMBtu/hr, lb/hr, ton/hr, hp, number of cylinders, etc.)
- For **Boilers**: Make, Model, Model Year, Installed Date, Maximum Rated Capacity, Fuel Combusted
- For **Compressor Engines/Generators**: Make, Model Year, Maximum Rated Capacity, Fuel Combusted, L/Cylinder
- For **Baghouses**: Grain loading and Air flow rate

Provide an updated site diagram (Step 46) and process flow diagrams (Step 47) to reflect the listed changes.

**Table 1**

Emission Unit ID	Emission Unit ID/Description	Control Equipment ID/Description	Type of Change (Added/Removed/Modified)	Maximum Capacity/Throughput (in Units)	Description of Change	Date of Change
