

Air Quality Construction Permit Application Form 4.0: Applicable Requirements

FACILITY NAME: _____ **DATE:** _____

DWEE Facility ID: _____

Section 4.1: NSPS Applicable Requirements

IMPORTANT: Do NOT use pencil to fill out this application. Please type responses or use black ink.

For each applicable New Source Performance Standard (NSPS) that a unit(s) located at your facility is/will be subject to, identify the applicable requirement (ex. NSPS, Subpart Dc), the requirement citation (e.g. Title 129, Chapter 12, Section 001.05 and/or 40 CFR 60.40c), and the unit(s) subject to the applicable requirement (e.g. EU31-Boiler number 3). Only units being addressed in this application need to be included on this page. For information on NSPS, visit <https://www.epa.gov/caa-permitting/air-technology-standards-region-7> or contact the Nebraska Department of Water, Energy, and Environment (DWEE) NSPS Coordinator at (402) 471-2186.

Section 4.1: NSPS Applicable Requirements (continued)

IMPORTANT: Do NOT use pencil to fill out this application. Please type responses or use black ink.

For each New Source Performance Standard (NSPS) that may appear to apply to a unit(s) located at your facility but actually does not apply, identify the applicable requirement (e.g. NSPS, Subpart IIII), the requirement citation (ex. T129, Chapter 12, Section 001.80 and/or 40 CFR 60.4200), and the unit(s) that appear to apply to the subpart (ex. EU20-Emergency Generator) and the reason why the subpart does not apply (e.g. displacement is greater than 30 liters per cylinder). Only units being addressed in this application need to be included on this page.
