

# Air Quality Construction Permit Application

## Form 4.0: Applicable Requirements

FACILITY NAME: _____	DATE: _____
DWEE Facility ID: _____	

### Section 4.2: NESHAP Applicable Requirements

**IMPORTANT: Do NOT use pencil to fill out this application. Please type responses or use black ink.**

For each applicable National Emission Standard for Hazardous Air Pollutants (NESHAP) that a unit(s) or process located at your facility is/will be subject to, identify the applicable requirement (e.g. NESHAP, Subpart ZZZZ), the requirement citation (e.g. Title 129, Chapter 13, Section 002.78 and/or 40 CFR 63.6580), and the unit(s), process, or emission point(s) that is subject to the applicable requirement (e.g. EU20, Emergency Generator or EP-32, Fermentation Scrubber Vent). If no units or processes at your facility are subject to any NESHAP requirements (including any area source NESHAPs), this section does not need to be completed and/or submitted. For information about NESHAPs, view <https://www.epa.gov/stationary-sources-air-pollution/national-emission-standards-hazardous-air-pollutants-neshap-8> or contact Nebraska Department of Water, Energy, and Environment (DWEE) at 402-471-2186 for assistance.

**NOTE:** Completing this section does **not** fulfill the initial notification requirements under the NESHAP general provisions; please contact the DWEE for initial notification requirements and forms.

### Section 4.2: NESHAP Applicable Requirements (continued)

**IMPORTANT: Do NOT use pencil to fill out this application. Please type responses or use black ink.**

For each NESHAP that may appear to apply to a unit(s) or process located at your facility but actually does not apply, identify the applicable requirement (e.g. NESHAP, Subpart ZZZZ), the requirement citation (e.g. Title 129, Chapter 13, Section 002.78 and/or 40 CFR 63.), and the unit(s), process, or emission point(s) that is subject to the applicable requirement (e.g. EU20, Emergency Generator or EP-32, Fermentation Scrubber Vent), and the reason why the subpart does not apply.
